PROFESSIONAL SUMMARY

.NET Developer with 4+ years of commercial experience building and maintaining backend applications in C#, .NET Core and ASP.NET Core. Currently working in the payments domain on the Nexi Group integration platform, handling high-volume transaction data across European partner banks. Strong in RESTful APIs, Entity Framework Core, SQL databases, Microsoft Azure, SOLID principles, code reviews and Agile (Scrum) delivery. English at C1 level.

KEY SKILLS

Languages and Frameworks: C#, .NET, .NET Core, ASP.NET Core, ASP.NET MVC, Web API, LINQ, Entity Framework Core, SignalR, JavaScript, React

Architecture and Patterns: RESTful APIs, SOAP, CQRS, Unit of Work, N-Tier Architecture, SOLID, distributed systems, event-driven messaging (Kafka)

Cloud and DevOps: Microsoft Azure (Azure Functions, App Service, Static Web Apps, Azure SQL), Docker, Git, GitHub

Databases: Microsoft SQL Server, MySQL, Azure SQL Database, query optimisation and indexing

Testing and Tools: NUnit, unit testing, Postman, Swagger / OpenAPI, Agile, Scrum, code review

Domain: Payments and banking integrations, batch transaction processing, SLA-driven production support

WORK EXPERIENCE

Software Developer - LTM

Warsaw, Poland | 06/2026 - Present | Nexi Group payments integration project

- Support and maintain .NET backend integration services that process daily payment transaction batches for multiple European partner banks.
- Investigate integration defects by querying and validating transaction data in Microsoft SQL Server and MySQL, tracing discrepancies across systems to their root cause.
- Monitor scheduled batch jobs and data flows, identifying failed or delayed runs before they create downstream discrepancies.
- Coordinate with partner-bank stakeholders and internal engineering teams to reproduce, document and resolve data issues within agreed SLAs.
- Produce technical documentation and root-cause analysis write-ups for international stakeholders.

Software Developer - LTM

Krakow, Poland | 02/2024 - 06/2026 | Microsoft Azure platform engagement

- Provided development and technical support for enterprise-level .NET applications hosted on Microsoft Azure.
- Diagnosed and resolved complex production issues across Azure Functions, App Services and networking configurations.
- Analysed performance bottlenecks and configuration faults in distributed cloud environments to maintain high availability.
- Partnered with Microsoft engineering and product teams on platform-level incidents and root cause analysis (RCA).
- Prepared clear technical reports, status updates and documentation for international stakeholders.

Software Developer - Lima Technologies

Baku, Azerbaijan | 02/2023 - 09/2023

- Designed and developed backend services and RESTful APIs using C#, .NET Core and Entity Framework Core.
- Implemented real-time communication features with SignalR to improve user interaction.
- Applied SOLID and object-oriented design, wrote NUnit unit tests over core business logic and took part in peer code reviews.

Software Developer - NanTech

Baku, Azerbaijan | 08/2022 - 01/2023

- Developed web applications using C# and ASP.NET, integrating backend services with frontend components.
- Implemented data access layers using LINQ and Entity Framework and resolved critical defects through proactive code reviews.

EDUCATION, LANGUAGES AND CERTIFICATES

Master of Science, Data Science - WSB University, Poland | 09/2023 - 06/2025

Bachelor of Science, Computer Science - Baku State University, Azerbaijan

Languages: English (C1, Professional), Turkish (C2), Azerbaijani (Native), German (A1)

Certificates: Azure Fundamentals (QA), C# (LinkedIn), Full Stack Web Development (MilliSoft)
